

International Technical Support Engineer

Languages Required: French

At this company it's all about the team. Nobody is just a number. We work to be the best at what we do. We are real professionals with great work ethic and the drive to succeed.

We invest in our team, create a great working environment and provide an opportunity for a Technical Support Engineer to become the best they can be.

We provide IT support and project related services to business and education customers.

As an International IT Support/Installation Engineer you will be responsible for providing key technical support to customers, and troubleshooting their IT issues. You will work closely with our account managers to help manage the customer sites.

We have a vacancy to fill, which requires fluent **French** and will involve some European travel, to support a very well-known global brand.

To be considered for this role, you should have a good understanding of:

- Experience of Office 365
- Networking (Routing and Switching)
- Microsoft Desktop and Server Technologies
- Virtualization technologies

You must have a valid and clean driving license, and the ability to pass a DBS check as you will be working with sensitive data.

Excellent written and verbal communication skills are essential, in English and French. German would be a bonus.

In return we offer:

Great working environment and team

Competitive salary
Company Mobile Phone
Medical Plan
Company Pension Scheme
Travel allowance
Regular Bonuses
Technical Mastery Programme (Internal development and training programme)

LOCATION: Girton, Cambridge, CB3 0QH

TYPE: Permanent - Full Time
