Breathe Easy – Mobile

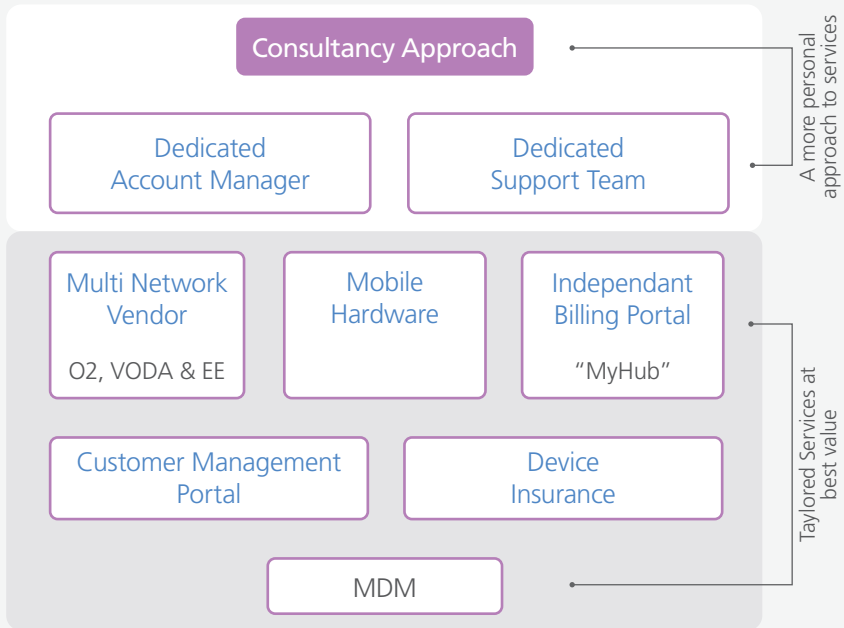

Your business mobiles delivered
at best value with a more
personal approach to service.

Why Breathe?

Breathe has been delivering best-of-breed communications and IT systems to businesses and schools since 2003. We believe in delivering our services with a more personal approach and always ensuring best value.

We can provide a one-stop shop for mobile, cloud telephones, and connectivity, all on a single bill.

Breathe Easy – Mobile is a multi-network vendor and has access to the UK's three major networks, O2, Vodafone, and EE. We guarantee to provide the best value and service to our customers, and like many other suppliers, we offer a range of tariffs and handsets to suit your business. However, what makes us different is our intuitive and independent billing platform.

When it comes to your mobile solutions, we understand what really matters to your business. A price plan that delivers maximum value, applications, call plans, as well as Mobile Device Management (MDM). **Breathe Easy – Mobile** use a consultative approach, we have access to a wide range of tariffs and handsets, initially we will analyse your requirements and identify any issues that you may be experiencing and build a tailored agreement that meets your business requirements.

Your business mobiles delivered at best value with a more personal approach to service.

Multi Network Vendor

We are happy to be able to offer not just 1 network but 3. We work alongside the three UK's biggest mobile networks O2, Vodafone and EE. Breathe Mobile are also able to provide all 3 networks to the same Business on 1 monthly invoice.

You will have access to use O2's fantastic features such as over 16,000 O2 Wi-Fi hotspots to save your data, roam freely across O2's Europe Zone as you normally would in the UK, Utilise your minutes, texts and data, as you would at home, across 48 destinations at no extra cost. When using data within Europe Zone, you will have your full monthly allowance, as you would in the UK. Need to buy more? No problem, you are able to purchase more with the same options and costs as in the UK.

We are able to offer the complete range of Vodafone Business Tariffs including the latest unlimited and 5G Packages. With 5G rolled out across the UK and Europe, when you're on a Vodafone business contract you can rely on the fastest speeds to power the productivity on-the-go. Download, upload and work on documents from anywhere at any time and securely with Vodafone 5G.

EE business plans ensure that you always stay connected, even if you go over your data allowance! You can continue to use your business-critical apps like email, Whatsapp and maps by switching your usage to a slower speed of 0.5Mbps. You are also able to take your data abroad and roam for a fixed price per day within EE's Europe Zone and EE's Roaming passports.

Hardware Leasing

In the past 5 years, the world has seen a significant rise in mobile phone leasing due to the rise in hardware costs. Placing your mobile phones on a lease allows you to have more flexibility and cheaper options to purchase SIM-only business plans.

What are the benefits of Mobile Phone Leasing?

- allows you to upgrade your mobile device every 12, 24, or 36 months.
- Save money by being more specific about the handsets your company uses; don't settle for "one size fits all."
- Include your mobile phones with other company hardware and software requirements.
- No upfront expenditure for hardware
- Flexible and affordable end-of-term options

Trade in Programme

At *Breathe Easy – Mobile*, we are able to offer the option to trade in your old mobile phones. By trading in your old mobile phone, you will not only be able to put the money back into your business, but it will also help the environment along with keeping your drawers tidy

Mobile Hardware

We have access to all of the latest handsets, due to the large variety of devices we recommend that you contact us direct to discuss your requirements and we will be happy to advise you on the best device for your business.

Independent Billing Portal & Customer Management Portal

Our online portal 'My Hub' allows our customers to independently change sims, add and remove bars, analyse invoices and view unbilled usage which is updated on an hourly basis. You will also have access to our true out of hours service, 24 hours a day, 7 days a week along with all of the tools to avoid those dreaded bill shocks. Automatic flag up high usage on either account or an individual service. In addition, you will have a barring functionality, allowing you to set your own spend

Mobile Insurance

Why separate your mobile insurance when you can have it all in one place. When you think of anything to do with your Business Mobiles we want you to think of Breathe mobile. So, whilst discussing your mobile requirements with our consultant they will also provide you a price for our mobile Insurance policy options.

Mobile Device Management (MDM) & Applications

Here at Breathe Mobile we understand that security is the most important thing within business, with businesses now not being tied to one place we are utilising mobile devices more and more. With staff working remotely we need to ensure that all your business information is secure. Meraki is the Mobile Device Management solution that allows you to manage the security of data stored and accessed on all devices within your business. Our MDM solution will provide you and your staff the flexibility they need without putting your data at risk as well as allowing them to use all those important business applications such as Office 365, Team, Adobe and many more.

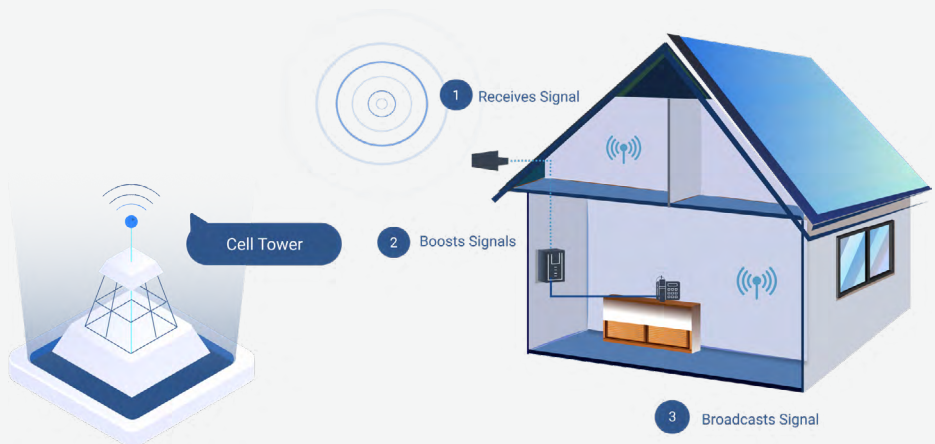

Mobile Boosting

In today's world, people still experience poor cellular coverage, which can impact productivity within the workplace as well as be very frustrating.

At Breathe, we have the best solution for you, which addresses the universal challenge of poor indoor mobile coverage! Plus, it is the only Ofcom approved solution in the UK.

Our mobile signal booster range includes solutions for apartments, residential developments, retail, offices, and commercial properties, as well as large enterprise environments like distribution centres, hospitals, schools, and university campuses.

Our products are designed to improve mobile signal strength with up to 100 dB gain for 3G, 4G, and 5G in voice and data.

Breathe also offers the following:

- Managed IT Support & IT Solutions
- Cloud Solutions
- Telephony & Connectivity
- Private Cloud/Hosting

In addition, we offer:

- Free reviews for mobile and cloud phone systems.
- Free internet survey to determine the best connectivity options and pricing.

Contact us today to receive your
FREE, NO OBLIGATION, mobile and
telephony review, as well as a FREE
Internet survey to determine the
best connectivity options and prices.
